

Amaia Edwards, age 5, kindergarten
Miss Larrinaga
Silver Trail Elementary, Kuna, ID

My name is Amaia. Trees are made out of wood. They are used on beds, they are used for houses and picture frames, too. Some are used for log cabins. I like to go camping in the mountains where there are thousands of trees. There is fresh air and lots of room to play. I see lots of trees up there and some are already cut down. Last time I was in the mountains I saw lots of deer and Bluejays. Owls make holes inside of trees so they have homes and can stay hidden from predators. I am making a float out of wood for my class Thanksgiving parade. It will be so fun. If we didn't have trees we wouldn't be able to have things made out of wood, and we wouldn't have fires to keep houses warm. Trees make our lives better.
