

Dear Forest,

There are so many things that you help me with. Without you, there wouldn't be very many things that we have now. You are very important.

You give people shelter. You give us oxygen. You provide materials for homes for people and animals like birds, squirrels, and others. There wouldn't be streams, trees, or grass. You give us clean water. You give water to animals, too.

You are so beautiful. There are beautiful things in you like flowers, the sky above, the streams, fresh air, and so much more. I get such a nice feeling when we are together. Sometimes I like to go out in nature and look for cool things like rocks, quartz, and caves. I like to go hiking, fishing and just looking at the cool fish. You give animals food and shelter.

Without you, I wouldn't have a roof over my head. There are so many places to explore because of you. The beauty of you is so wonderful. Thank you for everything.
