

Helping Loggers Stay in Business

By Maddison Harris, 3rd grade

Teacher Mrs. Edwards

Grangeville Elementary Middle School

All forest products are important to me because they support loggers who support my dad. My dad works at Les Schwab. He repairs logging truck tires.

Sometimes he gets service calls in the middle of the night to fix popped or broken truck tires. My dad gets off work late and I only get to see him for an hour before bed. He works hard and is really good at his job.

He travels to logging operations to fix broken machines and trucks. Loggers are very happy to see him!

Without our loggers in our community he wouldn't have as much work. He needs loggers to keep his job going. Without his job our family wouldn't have enough money and we might not be able to afford our food and pets.

I am thankful for forest products because they help loggers and my family.
