

Idaho Forest Products Commission Essay Contest

Crack! oh man that hit felt good off my wood bat. The best wood bat is a maple bat, these bats have good pop and strength. Maples like you are also strong. Wood bats start as you guys. Then you are chopped down and are sent to a factory. The bats are then shaped and sent to stores.

Maple trees are strongest because of your sticky sap and lignin. The two sticky liquids are even used in your house! Did you know ice cream is made of you! Ice cream uses cellulose a wood fiber to make it smooth and creamy YUM. You are also used for sports like basketballs are made from synthetic and willow bark.

Did you know people use something from a you every day. It is toothpaste, made by cellulose gum. Shampoo is also used from cellulose. Also you put rosin on ballae slippers and on your hands in baseball. I will help you by replanting and recycling. I use you every day it helps me stay healthy and let's me have fun!
